## LEVERAGING KNOWLEDGE

Raising finance is a complex task. It requires a sound knowledge of the market, the lenders and the best rates available. Further complications can arise where the funding is more specialised or an international focus is required. With global lending criteria being tightened and traditional lenders withdrawing from the market, clients are left with fewer and more expensive options to pursue.

A broker intermediary who is independent, has access to the full spectrum of lenders and has the knowledge of the best terms available, will offer clients peace of mind. Couple this with negotiating flexible terms and it helps to explain why private and commercial clients turn to specialist intermediaries with the necessary expertise and experience to help them secure the best deal available. Knox Capital Solutions has extensive experience in the Commercial Finance market and can leverage its knowledge across a range of services to meet the needs of its clients.

“BY LEVERAGING OUR KNOWLEDGE, WE  
GO BEYOND TRADITIONAL FINANCING.”
